DETAILED ACTION

Allowable Subject Matter

1. Claims 9-10 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Nakagawa et al (EP 0 851 422) discloses an optical disc camcorder wherein a camcorder main body has an internal chassis as disclosed in Figure 1 element 2 and described in Column 3 Lines 5-6. Elberbaum (US 6,628,338) further discloses a camera support system wherein rotary shafts are attached to the body of the camera at opposite ends of the base plate to allow for the camera to have a swinging motion as further seen in Figures 1 and 3 and described in Column 2 Lines 42+. However, the prior art of record fails to disclose, suggest, or teach the following limitation:

"..wherein each of said rotary shafts is individually attached to opposite ends of said sub-chassis along a longitudinal axis so that said sub-chassis is swingably attached along a longitudinal axis of said pair of rotary shafts and said base plate assembly rotates axially about each rotary shaft;"

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
